**RE: Country Hill Estates**

Councillor Darouze,

We hope you have been enjoying the nice weather. Country Hill Estates is following up with you regarding the status of our development.

As per your previous email dated June 23, 2016, you indicated the City of Ottawa was meeting with Cornwall Sand and Gravel the week of June 27, 2016 to discuss concerns brought forward by the Country Hill Estates Association.

Your July 6, 2016 email subsequently indicated the scheduled meeting was productive and a document was currently being drafted that would include their responses to all outstanding items. You indicated this document would be provided to the Country Hill Estates Association (CHEA) Board during the week of July 11, 2016, at the latest.

As of today, the CHEA Board has not received any documentation or further correspondence from the developer nor the city. Can you please provide a revised timeline for when we will be receiving an update with regards to the outstanding items in our community?

Sincerely,

A handwritten signature in black ink, appearing to read 'Sue Noël'.
